**CRIS Calls for
Applications
2025**

Schedule

Introduction: CRIS contra el cáncer

Terms, Conditions and Requirements

Frequently Asked Questions

Questions by the attendees

convocatorias@criscancer.org

CRIS

The Mission

Research to defeat cancer

- CRIS contra el Cancer is a private, independent, non-profit foundation.
- We are committed to funding cancer research teams and projects

Only by supporting research will we be able to defeat cancer.

CRIS Out-Back Fellowship

Encouraging international training and return

- Training and Mentoring Plan: Training courses and Mentoring.
- 2-4 year contract in an international institution
- 1-2 year contract in a Spanish institution
- €350,000 distributed in up to 5 annuities of €70,000

What are we looking for

Young, motivated and ambitious researchers with potential to become relevant cancer researchers

Candidates with potential to lead their own research group in the future

Requirements for Applicants

Doctorate in the last **5 years** or **4-9 years** of **research experience**

Research Line proposal including outgoing and return stages

Supervisor for each stage

Open for all nationalities

Fellowship Resources

350.000€

Salary min. €55.000 for labor costs

Moving Allowance of €1.250 (twice)

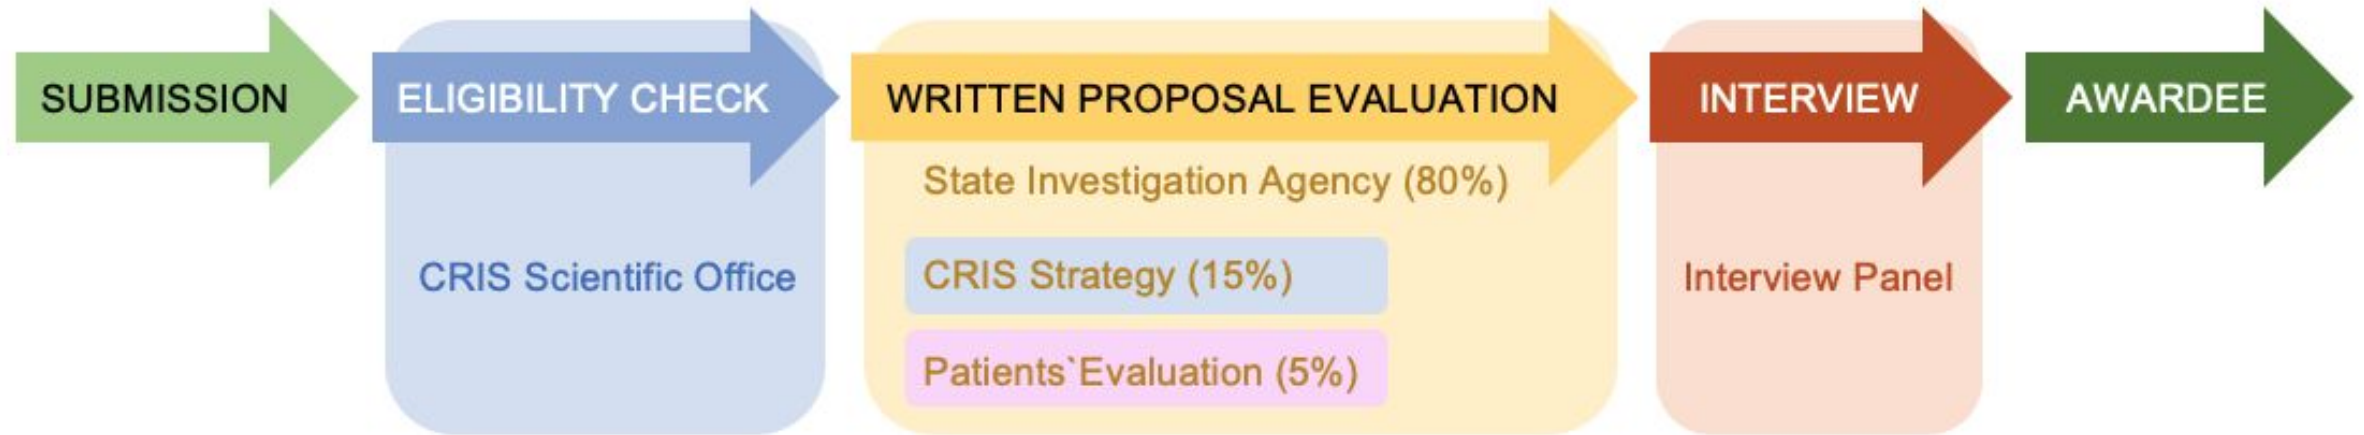

Family Allowance of €1.200/child

Research Costs up to €70.000

Evaluation Process

CRIS Traslational Physician Programme

Support Programme for Medical Research Doctors in Spain

- Aimed at research physicians with a **PhD** (up to 10 years)
- **€400,000** distributed in **5** annuities of **€80,000**
- Possibility of **intensification** of **50-100%** of the working day

What are we looking for

Young physician researchers with **traslational** research experience and the potential to become **leaders**

Ability to lead potent **traslational projects** that address key questions

Requirements for Applicants

Doctorate in the last **10 years**

at least **1 Q1 paper** as **first/last author**

Translational **Research Line**

Mentor

Open for all nationalities

Programme Resources

400.000€

Salary up to €70.000 labor costs
Salary supplement up to €70.000
Intensification of 50%-100%

Moving Allowance of €5.400

Family Allowance of €1.200/child

Research Costs up to €80.000

CRIS Emerging Leader Programme

Attracting and retaining bright young researchers

- Aimed at researchers, PhD obtained in the last **10** years
- **€400,000** distributed in **5** annuities of **€80,000**
- **Flexible** use of the grant

What are we looking for

Young investigators with potential, to support their transition to young PIs

Motivated researchers with innovative and creative lines

Requirements for Applicants

Doctorate between in the **10 years**

5 publications and 2 Q1 paper as first/last author or at least 1 D1 paper (>20 Imp.Factor) as first/last author

Translational Research Line

Mentor

Open for all nationalities

Programme Resources

400.000€

Salary up to €60.000 labor costs

Moving Allowance of €5.400

Family Allowance of €1.200/child

Research Costs up to €80.000

CRIS Excellence Programme

Promoting transformational and groundbreaking projects in Spain

- Researchers 15(♂) / 18(♀) years after Research Independence
- Fully flexible grant
- €1.250.000 distributed in up to 5 annuities of €250.000

What are we looking for

Transformative projects with potential to deliver significant changes in cancer treatment.

Candidates must be **young**, **motivated** and **ambitious**.

Requirements for Applicants

Research independence in the last **15/18 years**

10 publications and 3 Q1 paper as first/last autor or
at least 5 Q1 papers as first/last autor or
at least 2 D1 papers (>20 Imp.Factor) as first/last author

Translational and ground-breaking **Project Proposal**

Mentor

Open for all nationalities

Programme Resources

1.250.000€

Salary up to €70.000 labor costs
Salary supplement up to €70.000
Intensification

Moving Allowance of €5.400

Family Allowance of €1.200/child

Research Costs up to €250.000

Evaluation Process

PMCC – CRIS Drug Development Fellowship Grant

Training Programme in Drug Development and Phase I Trials

- Aimed at Medical Oncologist or Internal Medicine specialists
- Training and mentoring at the highest level, at PMCC.
- 2-year training programme
- Up to **CAD\$210.000** in 2 annuities of **CAD\$105.000**

What are we looking for

Early career physician investigators
interested in experimental therapeutics
and research

Requirements for Applicants

Medical Oncologist or MD who completed the Internal Medicine Residency

English proficiency

Spain, France or UK nationality

Programme Resources

CAD\$210.000

Salary up to CAD\$105.000
labor costs per year (2y)

CAD\$95.000 + 11%benefits

Training and integration
in the the PMCC-UHN
Phase I pipeline

Real-Life Trials In Oncology Programme

Clinical trials answering key questions in everyday patient management

- Clinicians with experience in clinical trials.
- Multicentric trials with Co-IPs at Gustave Roussy Institute and at any Spanish hospital.
- Up to **€1.500.000** distributed in 3 annuities of up to **€500.000**.

What are we looking for

**Pragmatic, Simple, Feasible, Affordable,
practice changing or practice informing**
Clinical Trials in France (GRI) + Spain

Requirements for Applicants

Two PIs: 1 in France (GRI) and 1 in Spain

Proven experience in independent clinical trials

Proposal with high level of methodology and quality

Open for all nationalities working in Spain and France

Programme Resources

1.500.000€

Salary of needed personnel

Clinical Trial costs

Consumables

Patient costs

Outsourcing

Others

Clinical Scientist Emerging Leader

Support Programme for Medical
Research Doctors in Gustave Roussy
Institute

- Specialist physicians/clinicians of any cancer field
- Experience in cancer research, and the potential to develop transformative research
- Up to **€210.000** distributed in 3 annuities of up to **€70.000**.

What are we looking for

Young physician researchers with **traslational** research experience and the potential to become **leaders**

Ability to lead potent **traslational projects** that address key questions

Requirements for Applicants

Currently developing, or willing to develop, their career at Gustave Roussy Institute

Experience in cancer research

Translational **Research Line**

Specialist physicians/clinicians

Open for all nationalities

Programme Resources

210.000€

Salary up to €70.000 labor costs,
Contract or **Intensification**.

Research Costs up to €70.000

Collaborations

- **Programa CRIS contra el cáncer-ASEICA** de Formación Dual en Residencia Médica /PhD en Cáncer
- **SEOM VISITING FELLOWSHIP** de estancias cortas en centros de referencia en el extranjero
- **MÁSTER SEOR-CRIS contra el cáncer.** Becas para estudiantes del Máster en Investigación en Oncología Radioterápica
- **Ayuda FEHH-CRIS contra el cáncer** para estancias de investigación en el extranjero
- **Beca FSEHOP- CRIS contra el cáncer** para formación en Investigación en centros de referencia en el extranjero
- **Ayuda CRIS-RAICEX** para financiación de estancias cortas en forma de congresos, para establecer redes de contacto con el ecosistema en cáncer en España.

Submission

www.criscancer.org

The image shows a screenshot of the Cris website, which is dedicated to cancer research. The background features a collage of images: an elderly couple on the left and a scientist using a microscope on the right. The website's header includes the Cris logo (with the tagline 'contra el cáncer') and the slogan 'INVESTIGACIÓN PARA OTRA OPORTUNIDAD'. A navigation menu at the top contains links for 'INVESTIGACIÓN', 'CÓMO COLABORAR', 'CONÓCENOS', 'ACTUALIDAD', and 'CONTACTO'. A prominent red button labeled 'HAZTE SOCIO' is located in the top right corner. The main content area is divided into two sections. The left section lists 'INVESTIGACIÓN CONTRA EL CÁNCER', 'CONVOCATORIAS DE INVESTIGACIÓN', 'PROGRAMAS' (highlighted with a red arrow), 'BECAS', 'CRIS INTERNACIONAL', and 'CRIS SCIENTIFIC CONGRESS & AWARDS'. The right section features the text 'Cada año miles de personas piden otra oportunidad frente al cáncer' and a yellow button labeled 'ACTÚA Y DONA'.

Frequently Asked Questions

What can I apply for?

Call for Applications	Career		Experience	Publications
	Scientist	Clinical Scientist		
CRIS Excellence Programme	✓	✓	15 years (man) / 18 years (woman) of Research Independence	>10 publications; first/last author of 3 papers in Q1 journals first/last author of 5 papers in Q1 journals first/last author of 2 papers in D1 journals (IF>20)
CRIS Emerging Leader Programme	✓	✓	< 10 years since PhD; at least 12 months abroad	>5 publications; first/last author of 2 papers in Q1 journals first/last author of 1 paper in D1 journals (IF>20)
CRIS Traslational Physician Programme	✗	✓	< 10 years since PhD. Research Time, not Assistance Workload	first/last author of 1 paper in Q1 journals
CRIS Out-Back Fellowship	✓	✓	< 5 years since PhD or 4-9 years Res.Experience	
PMCC – CRIS Drug Development Fellowship Program *	✗	✓		
GR-CRIS Real-Life Trials In Oncology Programme **	✗	✓		
GR-CRIS Clinical Scientist Emerging Leader Programme	✗	✓		
CRIS-ASEICA Dual Residency / PhD Training Programme in Oncology	✗	✓		

* Medical Oncologist or MD who completed the Internal Medicine Residency

** All specialists physicians (Medical Oncologist / Haematologist / Paediatric Haematology and Oncology). Experience in Clinical Trials

Maternity/paternity

How can affect the maternity/paternity to the Res.Independence / PhD date requirement?

Date of Research Independence (Excellence) or PhD (Em.Leader, Tr.Physician, Out-Back) will be extended by 1 year per child in the case of male researchers, and 3 years per child in the case of female researchers. These periods are also extended in the case of non-born children.

Doctorate / Res.Indep. (men)	Years since Doctorate / Research Independence																											
	27	26	25	24	23	22	21	20	19	18	17	16	15	14	13	12	11	10	9	8	7	6	5	4	3	2	1	0
CRIS Excellence Programme										jan 07	jan 08	jan 09	jan 10	Research Independence														
CRIS Emerging Leader Programme														jan 12	jan 13	jan 14	jan 15											
CRIS Traslational Physician Talent Programme														jan 12	jan 13	jan 14	jan 15											
CRIS Out-Back Fellowship																			jan 17	jan 18	jan 19	jan 20						

Doctorate / Res.Indep. (women)	Years since Doctorate / Research Independence																											
	27	26	25	24	23	22	21	20	19	18	17	16	15	14	13	12	11	10	9	8	7	6	5	4	3	2	1	0
CRIS Excellence Programme	jan 98			jan 01			jan 04			jan 07	Research Independence																	
CRIS Emerging Leader Programme								jan 06			jan 09			jan 12			jan 15											
CRIS Traslational Physician Programme								jan 06			jan 09			jan 12			jan 15											
CRIS Out-Back Fellowship												jan 11			jan 14				jan 17			jan 20						

1 son / daughter

2 sons / daughters

3 sons / daughters

What documents can be submitted to prove maternity / paternity?

Any official document that accredits the mother/father-child relationship: family book, birth certificate, maternity/paternity leave, child's passport...

Grant Follow-up

At the beginning of the Programme (RLTiO)

- Protocol submitted to regulatory authorities
- Clinical Trial Approval from Ethics Committee & Regulatory Agencies

Annually

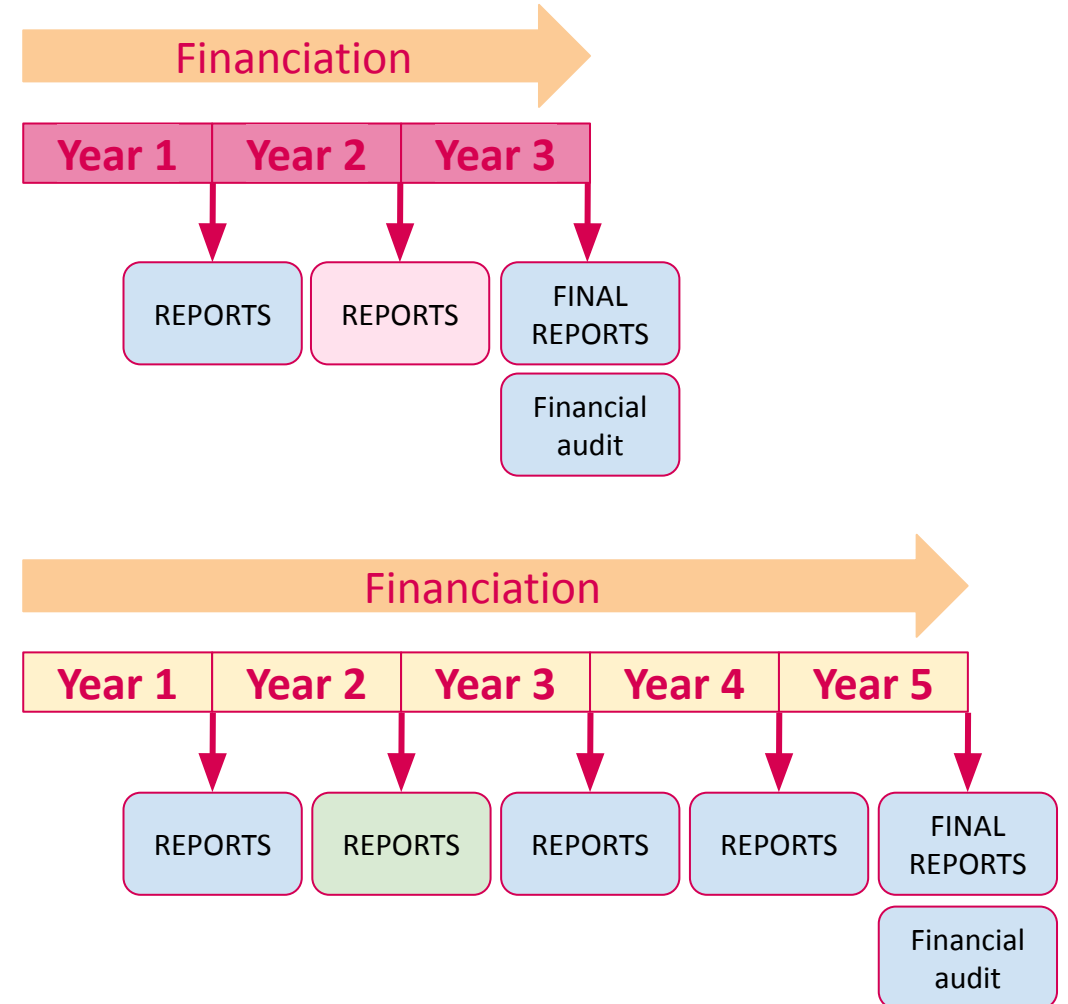

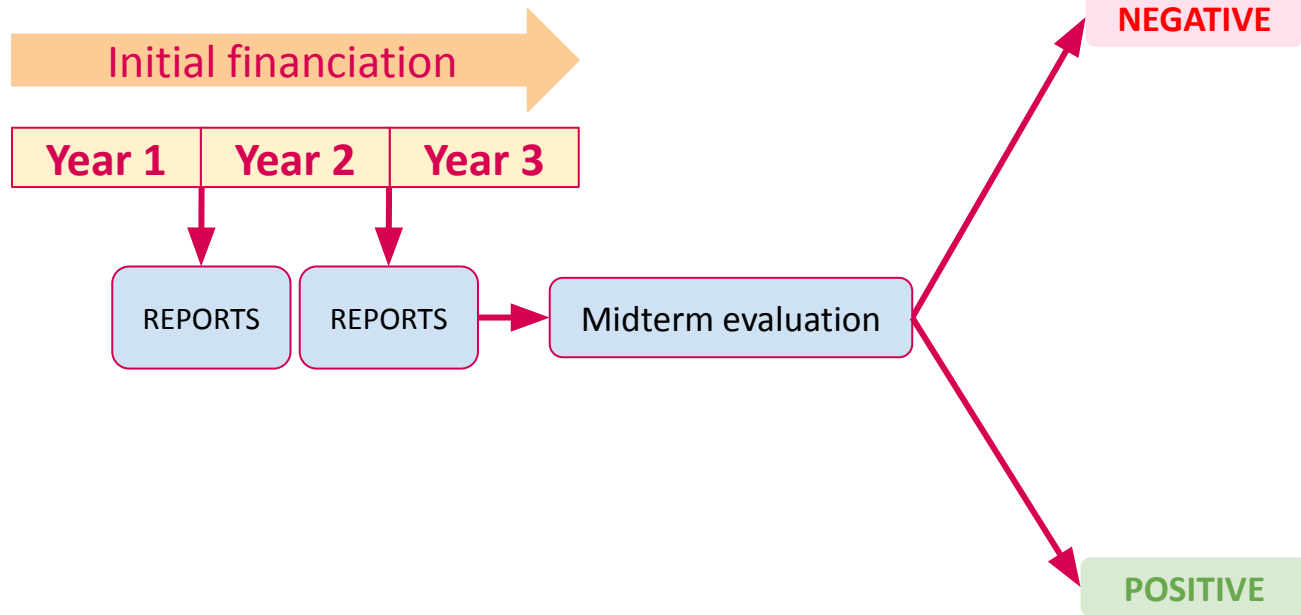

- Scientific report → 2nd year, Midterm evaluation
- Impact report
- Financial report

At the end of the programme

- economic audit report (external)

- Midterm evaluation: “The programme runs initially for three years and may be renewed for a further two years up to a maximum of five years, provided that the progress reports requested annually, and the midterm evaluation carried out after the second year are favourable.”

Is there any requirement related to the current labour contract of the candidate?

- There is no requirement or restriction related to the labour contract of the applicant during the submission and evaluation processes. However, it is mandatory to have the commitment of the hosting institution signed.
- In case of being awarded, the agreement will be signed with the hosting institution, so the applicant/awardee must have a labour contract with the hosting institution.

Is it mandatory to be PI of a research group to apply?

- It is not compulsory in any of the calls.
- In calls for more senior profiles, it will be positively valued.

Is it possible for one candidate to apply to several Programmes?

- A candidate may not apply to several CRIS Research Programmes (Excellence, Em.Leader, Tr.Physician).
- A candidate may apply to several calls for applications that are compatible with each other. For example, there is not incompatibility between CRIS Tr.Physician and Real-Life Trials in Oncology Programmes.
- calls for applications for one candidate to apply to several Programmes?

Is it possible to apply several Co-PI to one candidacy?

- It is not allowed to submit an application with two applicants (PI and Co-IP).
- The grant is allocated to a specific applicant. However, collaborations may appear, which may be specified in the project. If they complement the application, they will be positively valued. The collaborator may be a mentor.

What happens if the candidate does not need the to cover his/her salary?

- It is not mandatory to use the funds to pay the salary.
- The salary can be covered by the institution or any other funding source. However, the budget must indicate the source of financing the salary of the applicant.

Can the salary be supplemented?

- If the applicant has his/her salary covered, the funds can be used for:
 - Supplementing the salary, up to the maximum attributable to salary in each call
 - Project costs

Is there any requirement for the host institution?

- The Hosting Institution must be allocated in Spain (Excellence, Em.Leader, Tr.Physiscian, Out-back_Return)
- The Hosting Institution must have the capacity to recruit the applicant
- The Hosting Institution may be linked to another institution (For example, IBIMA and Hospital Universitario Virgen de la Victoria de Málaga), and the applicant may be developing the Project between both institutions.

Is there any requirement for the mentor?

- If the applicant is hierarchically dependent on another researcher, the mentor fits with the idea of supervisor. The mentor must be the researcher to whom the applicant is hierarchically dependent, as the mentor must guarantee certain resources to the applicant, and the authorship of publications deriving from the project linked to the submission.
- If the applicant is not hierarchically dependent on another researcher, the mentor does not consist of a supervisor or a person who is necessarily involved in the day-to-day running of the Project. In this case, the mentor is more of a reference figure, with whom a fluid relationship is maintained, who can give feedback, guidance or suggestions at any given time, both in purely scientific matters and even in career counselling. So, the mentor can work in the same institution or in a different one from the applicant's, even in an institution outside Spain.

Can several proposals have the same mentor?

- One researcher can be mentor of several proposals, there is no restriction in this respect.

How to integrate Gender Dimension in the Research project template

- Gender Dimension must be integrated in the Research project template at the level of project design, taking into account gender differences, and at the level of equity/parity in the research group's personnel.

What does the “Lay Summary” document consist of?

- The Lay Summary is a document that should explaining the project in a simple way, understandable to patients.
- The document should include the explanation in English (one page)and in Spanish (one page)

→ **CRIS Emerging Leader: what documents can be submitted to prove having worked at least 12 months abroad?**

→ Any official document proving the stay: rent, employment contract, document signed by supervisor or institution...

CRIS Excellence: what documents can be submitted to prove Research Independence?

→ Any official document proving independence: being a beneficiary of a project, a letter from the centre...
